

THE SIGNHIFY STUDIO BLUEPRINT

Systems, stacks & prompts behind a fully autonomous AI content engine — free forever.

Signhify Studio is a FULL AI ENGINEERING STUDIO — signhify.studio · [@signhify.studio](https://twitter.com/signhify.studio)

1. Live Portfolio

System	What it does
Autogram Engine	Zero-touch IG machine: research, virality gate, carousels, stories, reels, auto-publish + auto-DM (24 drops/day).
\$0 Video Pipeline	MoneyPrinterTurbo + edge-TTS + Pexels + FFmpeg to 9:16 reels, auto-published.
Mission-Control Dashboard	Live cockpit: queue, scheduler daemon, provider hub, prompt library.
3D Theme-Reactive Landing	5-theme immersive site with ROI simulator.

3. The \$0 Autonomy Stack

Layer	Tool (free)
LLM reasoning	Groq free tier, Gemini free, local Ollama
Voiceover	Microsoft edge-TTS, no key
Footage	Pexels free API
Assembly	FFmpeg + MoneyPrinterTurbo, local
Hosting	IMGBB free API, catbox.moe / 0x0.st
Publishing	Meta Graph API, no SaaS middleman
Scheduling	GitHub Actions + cron-job.org + Task Scheduler
Captions	Anton (OFL), burned in

4. Prompt Pack (copy-paste starters)

P1 — The \$0 Auditor. List every paid tool in [WORKFLOW]. For each, name the best self-hosted FOSS replacement, license, stars, and the 1-line deploy command. Rank by yearly savings.

P2 — Chain-of-Density Summarizer. Summarize [ARTICLE] in 5 sentences. Rewrite 3x, each denser — same length, more entities, zero filler. Return only the final.

P3 — Reel Script Machine. 50-second Reels script on [TOPIC]: 3-second hook, 3 beats with proof-points, last-line CTA. 110-130 words. No stage directions.

P4 — Contrarian Takes. 5 defensible contrarian takes on [NICHE], one line each with the 1-sentence reason.

P5 — Carousel Architect. 8 slides on [TOPIC]: sub-8-word hook, one idea + proof chip per slide, final-slide CTA commenting [KEYWORD].
